### **Kyocera at the Ambiente 2026: Expansion of the range of sustainable kitchen products**

**New pans complement the existing Kyocera cookware range. The focus is on high-quality materials, functional properties and consistent sustainability.**

**London/Kyoto, 22<sup>nd</sup> January 2026.** Kyocera is presenting two new pan models at [Ambiente 2026](#) as an addition to its sustainable kitchen portfolio. They exemplify Kyocera's commitment to combining durability, environmental friendliness and high functionality. Visitors to the trade fair can find Kyocera at the PROFINO stand in Hall 9.0, Stand No. C21.

The new pan models CFP-L09 (24 cm, RRP 79,90 €) and CFP-L11 (28 cm, RRP 89,90 €) will be available from spring 2026, complementing the Kyocera cookware series launched in 2024, which includes frying pans, grill pans, saucepans and cooking pots. Thanks to their durable material concept and ceramic coating that is harmless to health and completely free of PTFE, PFOA and BPA, they offer a viable alternative to conventional cookware containing plastic components. Thanks to their special material composition, the ceramic surface is not only non-stick and easy to clean, but also extremely durable. In addition, the multilayer base ensures even heat distribution for an energy-efficient cooking experience. Heat-resistant stainless steel handles provide additional comfort and safety in everyday use.

### **Other products from the Kyocera range**

Alongside the new pans, Kyocera will also be showcasing its Slim Mug series at Ambiente 2026. Introduced last year, this series offers a sustainable alternative to disposable cups. The travel mugs are available in three sizes (180 ml, 300 ml, 500 ml) and four natural, matt colours. They combine design, functionality and environmental awareness, keeping drinks cold for up to 24 hours or warm for up to 12 hours. The mugs are shock-resistant, acid-resistant, and also completely PFAS-free.

### **More than just new products: 40 years of ceramic expertise**

For more than four decades, the company has been continuously developing its high-tech ceramics and using this expertise to create innovative consumer goods. From ceramic knives to drinking bottles and cookware, the products are renowned for their quality, everyday usability and high level of sustainability. The continuous expansion of the product range demonstrates the company's commitment to combining environmental responsibility with technological progress.

### **About the Ambiente trade fair**

Ambiente in Frankfurt is the world's most important consumer goods trade fair for dining, living, giftware and office supplies. It offers an international platform for design trends, innovations and new products. This year, the trade fair will take place from 6 to 10 February 2026.

### **About PROFINO**

PROFINO is a Solingen-based distributor that has been selling innovative kitchen, tableware and to-go products in Germany and Austria since 2008. In addition to Kyocera, PROFINO's brand portfolio includes other well-known international brands. The company's focus is on sustainability, durability and innovation – values that Kyocera also represents.

## About Kyocera

Kyocera has been successful in Europe for over 50 years. From its European headquarters in Esslingen am Neckar, KYOCERA Europe GmbH operates 29 sites including manufacturing facilities, with products ranging from fine ceramics, automotive, semiconductor and optical components to components for medical products, industrial tools, LCDs, touch solutions, industrial printing components, and consumer goods such as kitchen and office products.

KYOCERA Europe GmbH is a company of the [KYOCERA Corporation](#) headquartered in Kyoto/Japan, a renowned supplier in semiconductor, industrial and automotive components as well as electronic components, printing and multifunction systems, smart energy systems, and communications technology. Kyocera is one of the most experienced technology producers, with more than 65 years of industry expertise. The Kyocera Group comprises 288 subsidiaries (31 March 2025). With around 77,200 employees, Kyocera generated net annual sales of around EUR 12.43 billion in the 2024/2025 fiscal year.

Kyocera is ranked 874 on Forbes magazine's 'Global 2000' list for 2024 and ranked as 'The 100 Most Sustainably Managed Companies in the World' according to the Wall Street Journal. For the second year in a row, Kyocera qualified for the Dow Jones Sustainability Index (Asia-Pacific). As well, Kyocera receives a Bronze rating on EcoVadis Sustainability Survey and was acknowledged as a 'Top 100 Global Innovator 2025' for the ninth time by Clarivate, being one of the world's leading innovators.

Kyocera also takes an active interest in cultural affairs. The Kyoto Prize, a prominent international award, is presented each year by the Inamori Foundation — established by Kyocera founder Dr Kazuo Inamori — to individuals worldwide who have contributed significantly to the scientific, cultural, and spiritual betterment of humankind (equivalent to approximately €596,500 per prize category).
